PROFILE SUMMARY

Enthusiastic Full Stack Developer with hands on experience in small projects, seeking an entry-level position to utilize my skills in Java, JDBC, JavaScript and MySQL. Passionate about building responsive and user-friendly web applications. Eager to contribute to a dynamic team, continuously learn and grow within the field of web development. Committed to solving real-world problems through innovative coding solutions.

PROJECTS

Portfolio Website

- Created a modern, responsive portfolio website using HTML for structure, CSS for design, and JavaScript for adding interactivity, highlighting various web development projects.
- Emphasized a mobile-first design, ensuring an intuitive and seamless user experience across devices, with focus on performance optimization and cross-browser compatibility.

Construction Website

- Expanded and developed responsive, visually appealing construction websites using HTML, CSS, and JavaScript to showcase services and projects effectively.
- Maintained clean, efficient code to ensure high performance, fast load times, and SEO-optimized websites tailored to the needs of the construction sector.

Web Agency Website

- Developed and implemented a professional website for a web agency using HTML, CSS, Bootstrap and JavaScript, ensuring cross-browser compatibility and mobile responsiveness.
- Added interactive elements such as form validation, smooth scroll navigation, and dynamic content display using JavaScript to enhance user experience and functionality.
